SUMMARY

Frontend Developer with hands-on experience building responsive and user-friendly web interfaces using HTML, CSS, JavaScript, and React. Skilled in creating reusable components, handling UI state, and integrating APIs. Passionate about clean UI, performance, and continuous learning. Seeking an entry-level frontend role to contribute to real-world products and grow professionally.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript
- **Frontend:** React.js, HTML, CSS
- **UI & Tools:** Github, REST API, Mantine UI
- **Basic Knowledge:** Laravel, MySQL

EXPERIENCE

Frontend Development (Hands-on Practice & Projects)

- Built multiple frontend projects independently
- Worked extensively on UI design, responsiveness, and component logic
- Gained practical experience through real-world project simulations
(No full-time professional experience yet)

PROJECT

Job Portal (JobAstro) [\[Link\]](#)

- Built a responsive job portal UI using React and modern CSS
- Implemented job listing, job detail pages, and company cards
- Integrated APIs to fetch dynamic job and company data
- Improved UI/UX with cards, shadows, transitions, and mobile responsiveness

Tech Used: React, CSS, JavaScript, REST APIs, Sanity

My Portfolio Website (Frontend) [\[Link\]](#)

- Developed a personal portfolio website using React, HTML, and CSS.
- Implemented React Router for smooth navigation between pages (Home, About, Skills, Contact).
- Added interactive components and form validation using React hooks.
- Showcased skills, about and contact details in a structured layout.

Tech Used: HTML, CSS, React.js
